## PROJECTS

---

### CRICKET LIVE SCORES

Sports websites do offer live scores on their page which is what the majority of the people follow to stay updated on live updates if they are not watching a match.

But the thing with these websites is that you have to keep staring at the page or refreshing it to get the latest score which can be quite unproductive if you are in the middle of important work.

### SELF-OPERATED AND EFFICIENT RECRUITMENT PROCEDURE USING NATURAL LANGUAGE TOOLKIT

The main motive of this application is to automate the entire evaluation process and let the company know the candidates with the appropriate quality based on the job requirements.
